## 4th Grade ELA: Reading Fluency

Class \_\_\_\_\_

1. Maria loves reading books about animals. She finds them fascinating and learns a lot from them. One day, she read a book about dolphins and discovered that they are very intelligent creatures. Dolphins use sounds to communicate with each other and can even learn new tricks. Why did Maria enjoy reading the book about dolphins?
  - a) She finds them fascinating and learns a lot from them
  - b) She wanted to see a real dolphin
  - c) She doesn't like reading about animals
  - d) She was bored
2. Every Saturday, John goes to the park with his family. They enjoy having picnics and playing games together. Last week, they played soccer and had a great time. John scored the winning goal and felt very proud. Why did John feel proud?
  - a) He scored the winning goal
  - b) He didn't play any games
  - c) He lost the game
  - d) He was reading a book
3. Sarah's favorite subject in school is science. She loves doing experiments and learning about the natural world. Recently, she learned about the water cycle and how water moves through different stages. She was excited to share what she learned with her friends. What did Sarah learn about?
  - a) The water cycle
  - b) The history of art
  - c) The geography of countries
  - d) The biography of a famous person
4. Tom enjoys visiting his grandparents every summer. They live on a farm with many animals, and Tom helps with the chores. He feeds the chickens and collects eggs every morning. One day, he found a newly hatched chick and was very excited. Why was Tom excited?
  - a) He found a newly hatched chick
  - b) He got a new toy
  - c) He went to the city
  - d) He played video games

5.

Lucy loves to bake with her mom. They make cookies, cakes, and pies together. Last weekend, they made a chocolate cake for her dad's birthday. Lucy helped mix the ingredients and decorate the cake. What did Lucy and her mom do last weekend?

- a) Made a chocolate cake
- b) Went shopping
- c) Read books
- d) Watched TV

6. Sam's class went on a field trip to the zoo. They saw many different animals, including lions, giraffes, and monkeys. Sam's favorite part was watching the penguins swim. He learned that penguins can swim very fast and dive deep into the water. What did Sam learn about penguins?

- a) They can swim very fast and dive deep
- b) They can fly high in the sky
- c) They live in the desert
- d) They eat grass

7. Emma likes to draw and paint in her free time. She enjoys creating colorful pictures of nature and animals. One day, she painted a beautiful picture of a sunset over the ocean. Her family was very impressed with her artwork. What did Emma paint a picture of?

- a) A sunset over the ocean
- b) A busy city street
- c) A snowy mountain
- d) A crowded market

8. Michael loves playing basketball with his friends. They meet at the local court every afternoon to practice. Michael's favorite part of the game is shooting three-pointers. He has become very good at it and often scores points for his team. What is Michael's favorite part of basketball?

- a) Shooting three-pointers
- b) Running laps
- c) Watching the game on TV
- d) Playing video games

9. Olivia enjoys reading stories about magical adventures. Her favorite book is about a young wizard who goes on exciting quests. She likes imagining herself in the story and pretending to be a wizard. What does Olivia like to imagine?

- a) Being a wizard on magical adventures
- b) Being a scientist in a lab
- c) Being an astronaut in space
- d) Being a doctor in a hospital

10.

Daniel's family loves to go camping in the mountains. They hike, fish, and explore the wilderness together. Last summer, they saw a family of deer near their campsite. Daniel thought it was amazing to see the deer up close. What did Daniel's family see near their campsite?

- a) A family of deer
- b) A flock of birds
- c) A group of bears
- d) A pack of wolves

11. Sophia loves gardening with her grandmother. They plant flowers, vegetables, and herbs in the garden. Sophia's favorite part is picking the ripe tomatoes and tasting them. She thinks they are the best tomatoes she has ever eaten. What is Sophia's favorite part of gardening?

- a) Picking and tasting ripe tomatoes
- b) Watering the plants
- c) Planting seeds
- d) Pulling weeds

12. Liam enjoys building things with his toy blocks. He likes creating tall towers and intricate structures. One day, he built a model of a castle with a drawbridge. His parents were very impressed with his creation. What did Liam build with his toy blocks?

- a) A model of a castle
- b) A model of a spaceship
- c) A model of a car
- d) A model of a boat

13. Ella loves playing the piano. She practices every day and has learned to play many songs. Her favorite song to play is "Twinkle, Twinkle, Little Star." She enjoys performing for her family and friends. What is Ella's favorite song to play on the piano?

- a) "Twinkle, Twinkle, Little Star"
- b) "Happy Birthday"
- c) "Jingle Bells"
- d) "Silent Night"

14. Jacob likes to help his dad in the kitchen. They cook dinner together and try new recipes. Jacob's favorite dish to make is spaghetti and meatballs. He likes rolling the meatballs and adding them to the sauce. What is Jacob's favorite dish to make?

- a) Spaghetti and meatballs
- b) Chicken soup
- c) Grilled cheese sandwiches
- d) Pancakes

15.

Grace loves reading mystery books. She enjoys solving the puzzles and figuring out the clues. Her favorite book is about a detective who solves crimes in a big city. Grace likes to pretend she is a detective while reading. What does Grace like to pretend to be?

- a) A detective
- b) A chef
- c) A teacher
- d) An athlete

16. Ethan enjoys riding his bike around the neighborhood. He often goes on long rides with his friends. One day, they discovered a new trail in the woods and decided to explore it. They had a lot of fun riding through the trees. What did Ethan and his friends discover?

- a) A new trail in the woods
- b) A new playground
- c) A new park
- d) A new beach

17. Ava loves animals and wants to be a veterinarian when she grows up. She enjoys taking care of her pets and learning about different animals. One day, she helped a stray dog find its way home. Her family was proud of her kindness. What does Ava want to be when she grows up?

- a) A veterinarian
- b) A pilot
- c) A teacher
- d) An artist

18. Noah enjoys building model airplanes. He spends hours carefully assembling the pieces and painting them. One of his favorite models is a replica of a famous World War II fighter plane. He proudly displays it in his room. What is one of Noah's favorite models?

- a) A replica of a famous World War II fighter plane
- b) A model of a modern jet
- c) A model of a passenger plane
- d) A model of a helicopter

19. Lily loves dancing and takes ballet lessons every week. She practices her moves at home and dreams of becoming a professional dancer. Her favorite part of ballet is performing in recitals. She enjoys showing her family what she has learned. What is Lily's favorite part of ballet?

- a) Performing in recitals
- b) Practicing at home
- c) Learning new moves
- d) Watching dance videos

20.

James enjoys learning about space and the planets. He has a telescope and likes to look at the stars and the moon. One night, he saw a shooting star and made a wish. He was very excited about his discovery. What did James see through his telescope?

- a) A shooting star
- b) A comet
- c) A spaceship
- d) An alien

21. Chloe likes to write stories in her journal. She writes about her adventures and imaginary worlds. One day, she wrote a story about a magical forest with talking animals. Her teacher read it and said it was very creative. What did Chloe write about in her journal?

- a) A magical forest with talking animals
- b) A trip to the beach
- c) A day at school
- d) A visit to the zoo

22. Ben enjoys playing chess with his grandfather. He has learned many strategies and often wins their games. His grandfather says he is becoming a very good player. Ben is proud of his chess skills. What does Ben enjoy playing with his grandfather?

- a) Chess
- b) Checkers
- c) Cards
- d) Board games

23. Mia loves swimming and goes to the pool every weekend. She practices different strokes and tries to improve her speed. Her favorite stroke is the butterfly. Mia enjoys competing in swimming races. What is Mia's favorite stroke?

- a) The butterfly
- b) The backstroke
- c) The breaststroke
- d) The freestyle

24. Jack likes to read books about history. He enjoys learning about important events and famous people from the past. One of his favorite topics is ancient Egypt. He finds the pyramids and pharaohs fascinating. What does Jack like to read about?

- a) Ancient Egypt
- b) Modern technology
- c) Future inventions
- d) Space exploration

25.

Lily enjoys making crafts with her friends. They use different materials like paper, glue, and paint to create their projects. One day, they made colorful paper flowers to decorate their classroom. Everyone admired their work. What did Lily and her friends make?

- a) Colorful paper flowers
- b) A model of a volcano
- c) A robot from cardboard
- d) A knitted scarf

26. Oliver loves playing video games. He enjoys challenging himself and improving his skills. His favorite game involves solving puzzles and finding hidden treasures. Oliver likes the adventure and excitement of the game. What is Oliver's favorite game about?

- a) Solving puzzles and finding hidden treasures
- b) Racing cars
- c) Building cities
- d) Cooking meals

27. Maria loves reading books about animals. She finds them fascinating and learns a lot from them. One day, she read a book about dolphins and discovered that they are very intelligent creatures. Dolphins use sounds to communicate with each other and can even learn new tricks. Why did Maria enjoy reading the book about dolphins?

- a) She finds them fascinating and learns a lot from them
- b) She wanted to see a real dolphin
- c) She doesn't like reading about animals
- d) She was bored

28. Every Saturday, John goes to the park with his family. They enjoy having picnics and playing games together. Last week, they played soccer and had a great time. John scored the winning goal and felt very proud. Why did John feel proud?

- a) He scored the winning goal
- b) He didn't play any games
- c) He lost the game
- d) He was reading a book

29. Sarah's favorite subject in school is science. She loves doing experiments and learning about the natural world. Recently, she learned about the water cycle and how water moves through different stages. She was excited to share what she learned with her friends. What did Sarah learn about?

- a) The water cycle
- b) The history of art
- c) The geography of countries
- d) The biography of a famous person

30. Tom enjoys visiting his grandparents every summer. They live on a farm with many animals, and Tom helps with the chores. He feeds the chickens and collects eggs every morning. One day, he found a newly hatched chick and was very excited. Why was Tom excited?
- a) He found a newly hatched chick
  - b) He got a new toy
  - c) He went to the city
  - d) He played video games
31. Lucy loves to bake with her mom. They make cookies, cakes, and pies together. Last weekend, they made a chocolate cake for her dad's birthday. Lucy helped mix the ingredients and decorate the cake. What did Lucy and her mom do last weekend?
- a) Made a chocolate cake
  - b) Went shopping
  - c) Read books
  - d) Watched TV
32. Sam's class went on a field trip to the zoo. They saw many different animals, including lions, giraffes, and monkeys. Sam's favorite part was watching the penguins swim. He learned that penguins can swim very fast and dive deep into the water. What did Sam learn about penguins?
- a) They can swim very fast and dive deep
  - b) They can fly high in the sky
  - c) They live in the desert
  - d) They eat grass
33. Emma likes to draw and paint in her free time. She enjoys creating colorful pictures of nature and animals. One day, she painted a beautiful picture of a sunset over the ocean. Her family was very impressed with her artwork. What did Emma paint a picture of?
- a) A sunset over the ocean
  - b) A busy city street
  - c) A snowy mountain
  - d) A crowded market
34. Michael loves playing basketball with his friends. They meet at the local court every afternoon to practice. Michael's favorite part of the game is shooting three-pointers. He has become very good at it and often scores points for his team. What is Michael's favorite part of basketball?
- a) Shooting three-pointers
  - b) Running laps
  - c) Watching the game on TV
  - d) Playing video games

35.

Olivia enjoys reading stories about magical adventures. Her favorite book is about a young wizard who goes on exciting quests. She likes imagining herself in the story and pretending to be a wizard. What does Olivia like to imagine?

- a) Being a wizard on magical adventures
- b) Being a scientist in a lab
- c) Being an astronaut in space
- d) Being a doctor in a hospital

36. Daniel's family loves to go camping in the mountains. They hike, fish, and explore the wilderness together. Last summer, they saw a family of deer near their campsite. Daniel thought it was amazing to see the deer up close. What did Daniel's family see near their campsite?

- a) A family of deer
- b) A flock of birds
- c) A group of bears
- d) A pack of wolves

37. Sophia loves gardening with her grandmother. They plant flowers, vegetables, and herbs in the garden. Sophia's favorite part is picking the ripe tomatoes and tasting them. She thinks they are the best tomatoes she has ever eaten. What is Sophia's favorite part of gardening?

- a) Picking and tasting ripe tomatoes
- b) Watering the plants
- c) Planting seeds
- d) Pulling weeds

38. Liam enjoys building things with his toy blocks. He likes creating tall towers and intricate structures. One day, he built a model of a castle with a drawbridge. His parents were very impressed with his creation. What did Liam build with his toy blocks?

- a) A model of a castle
- b) A model of a spaceship
- c) A model of a car
- d) A model of a boat

39. Ella loves playing the piano. She practices every day and has learned to play many songs. Her favorite song to play is "Twinkle, Twinkle, Little Star." She enjoys performing for her family and friends. What is Ella's favorite song to play on the piano?

- a) "Twinkle, Twinkle, Little Star"
- b) "Happy Birthday"
- c) "Jingle Bells"
- d) "Silent Night"

40.

Jacob likes to help his dad in the kitchen. They cook dinner together and try new recipes. Jacob's favorite dish to make is spaghetti and meatballs. He likes rolling the meatballs and adding them to the sauce. What is Jacob's favorite dish to make?

- a) Spaghetti and meatballs
- b) Chicken soup
- c) Grilled cheese sandwiches
- d) Pancakes

41. Grace loves reading mystery books. She enjoys solving the puzzles and figuring out the clues. Her favorite book is about a detective who solves crimes in a big city. Grace likes to pretend she is a detective while reading. What does Grace like to pretend to be?

- a) A detective
- b) A chef
- c) A teacher
- d) An athlete

42. Ethan enjoys riding his bike around the neighborhood. He often goes on long rides with his friends. One day, they discovered a new trail in the woods and decided to explore it. They had a lot of fun riding through the trees. What did Ethan and his friends discover?

- a) A new trail in the woods
- b) A new playground
- c) A new park
- d) A new beach

43. Ava loves animals and wants to be a veterinarian when she grows up. She enjoys taking care of her pets and learning about different animals. One day, she helped a stray dog find its way home. Her family was proud of her kindness. What does Ava want to be when she grows up?

- a) A veterinarian
- b) A pilot
- c) A teacher
- d) An artist

44. Noah enjoys building model airplanes. He spends hours carefully assembling the pieces and painting them. One of his favorite models is a replica of a famous World War II fighter plane. He proudly displays it in his room. What is one of Noah's favorite models?

- a) A replica of a famous World War II fighter plane
- b) A model of a modern jet
- c) A model of a passenger plane
- d) A model of a helicopter

45.

Lily loves dancing and takes ballet lessons every week. She practices her moves at home and dreams of becoming a professional dancer. Her favorite part of ballet is performing in recitals. She enjoys showing her family what she has learned. What is Lily's favorite part of ballet?

- a) Performing in recitals
- b) Practicing at home
- c) Learning new moves
- d) Watching dance videos

46. James enjoys learning about space and the planets. He has a telescope and likes to look at the stars and the moon. One night, he saw a shooting star and made a wish. He was very excited about his discovery. What did James see through his telescope?

- a) A shooting star
- b) A comet
- c) A spaceship
- d) An alien

47. Chloe likes to write stories in her journal. She writes about her adventures and imaginary worlds. One day, she wrote a story about a magical forest with talking animals. Her teacher read it and said it was very creative. What did Chloe write about in her journal?

- a) A magical forest with talking animals
- b) A trip to the beach
- c) A day at school
- d) A visit to the zoo

48. Ben enjoys playing chess with his grandfather. He has learned many strategies and often wins their games. His grandfather says he is becoming a very good player. Ben is proud of his chess skills. What does Ben enjoy playing with his grandfather?

- a) Chess
- b) Checkers
- c) Cards
- d) Board games

49. Mia loves swimming and goes to the pool every weekend. She practices different strokes and tries to improve her speed. Her favorite stroke is the butterfly. Mia enjoys competing in swimming races. What is Mia's favorite stroke?

- a) The butterfly
- b) The backstroke
- c) The breaststroke
- d) The freestyle

50.

Jack likes to read books about history. He enjoys learning about important events and famous people from the past. One of his favorite topics is ancient Egypt. He finds the pyramids and pharaohs fascinating. What does Jack like to read about?

- a) Ancient Egypt
- b) Modern technology
- c) Future inventions
- d) Space exploration

51. Lily enjoys making crafts with her friends. They use different materials like paper, glue, and paint to create their projects. One day, they made colorful paper flowers to decorate their classroom. Everyone admired their work. What did Lily and her friends make?

- a) Colorful paper flowers
- b) A model of a volcano
- c) A robot from cardboard
- d) A knitted scarf

52. Oliver loves playing video games. He enjoys challenging himself and improving his skills. His favorite game involves solving puzzles and finding hidden treasures. Oliver likes the adventure and excitement of the game. What is Oliver's favorite game about?

- a) Solving puzzles and finding hidden treasures
- b) Racing cars
- c) Building cities
- d) Cooking meals

53. Olivia's class is learning about different ecosystems. They studied the rainforest and its diverse plant and animal life. Olivia was fascinated by the canopy layer, which is home to many birds and insects. She learned that the canopy helps protect the forest floor from heavy rains. What does the canopy layer do?

- a) It helps protect the forest floor from heavy rains
- b) It is the driest part of the rainforest
- c) It is where the largest animals live
- d) It is the coldest part of the rainforest

54.

Sam loves reading biographies of famous people. He recently read about Helen Keller, who was blind and deaf but learned to communicate through sign language and writing. Sam was inspired by her determination and achievements. What did Helen Keller learn to do despite being blind and deaf?

- a) Communicate through sign language and writing
- b) Play musical instruments
- c) Paint beautiful pictures
- d) Dance gracefully

55. Mia's class is studying the water cycle. They learned about evaporation, condensation, and precipitation. Mia was interested in how water vapor turns into clouds during condensation. She learned that clouds are made up of tiny water droplets. What are clouds made up of?

- a) Tiny water droplets
- b) Frozen ice crystals
- c) Small pieces of dust
- d) Bits of cotton

56. David enjoys reading about famous scientists. He recently read about Isaac Newton, who discovered the laws of motion and gravity. David was amazed by Newton's experiments and how they changed our understanding of the natural world. What did Isaac Newton discover?

- a) The laws of motion and gravity
- b) The theory of relativity
- c) The periodic table
- d) The structure of DNA

57. Lucy's class is learning about different habitats. They studied the desert and its unique plants and animals. Lucy was surprised to learn that cacti can store water in their thick stems to survive the dry conditions. She found it interesting that many desert animals are nocturnal to avoid the heat. How do cacti survive in the desert?

- a) They store water in their thick stems
- b) They have deep roots that reach underground rivers
- c) They move to cooler areas during the day
- d) They grow rapidly after rainstorms

58.

Alex loves learning about weather. He recently read about hurricanes and how they form over warm ocean waters. Alex was fascinated by the power of these storms and how they can cause significant damage. He learned that hurricanes have an eye in the center where the weather is calm. What is the eye of a hurricane?

- a) The calm center of the storm
- b) The strongest part of the storm
- c) The outer edge of the storm
- d) The place where the storm begins

59. Sarah enjoys reading about different cultures. She recently read about traditional Japanese tea ceremonies. Sarah was intrigued by the precise and graceful movements involved in preparing and serving tea. She learned that these ceremonies are a way to show respect and hospitality. What is the purpose of traditional Japanese tea ceremonies?

- a) To show respect and hospitality
- b) To celebrate birthdays
- c) To welcome the new year
- d) To honor the harvest

60. Ben's class is studying natural disasters. They learned about earthquakes and how they occur when tectonic plates shift. Ben was interested in how scientists measure the strength of earthquakes using the Richter scale. He learned that strong earthquakes can cause significant damage to buildings and roads. How do scientists measure the strength of earthquakes?

- a) Using the Richter scale
- b) With a thermometer
- c) By observing the damage
- d) By counting aftershocks

61. Ella loves reading about animals. She recently read about penguins and how they live in cold environments. Ella was surprised to learn that penguins are excellent swimmers and can dive deep into the ocean to catch fish. She found it interesting that penguins huddle together to stay warm. How do penguins stay warm in cold environments?

- a) They huddle together
- b) They grow thick fur
- c) They build nests underground
- d) They migrate to warmer areas

62.

Jack's class is learning about different forms of energy. They studied solar energy and how it is harnessed from the sun. Jack was amazed by how solar panels can convert sunlight into electricity. He learned that solar energy is a renewable resource. What do solar panels do?

- a) Convert sunlight into electricity
- b) Store wind energy
- c) Generate heat from coal
- d) Produce energy from water

63. Lily enjoys reading about different careers. She recently read about astronauts and the training they undergo to travel to space. Lily was fascinated by the challenges astronauts face, such as living in zero gravity. She learned that astronauts conduct experiments in space to learn more about our universe. What do astronauts do in space?

- a) Conduct experiments to learn more about our universe
- b) Build new spacecraft
- c) Teach space science classes
- d) Mine for minerals

64. Ryan's class is studying different types of governments. They learned about democracy and how citizens have the power to vote and make decisions. Ryan was interested in how democratic governments protect the rights and freedoms of individuals. He learned that voting is an important part of a democracy. What is an important part of a democracy?

- a) Voting
- b) Having a king or queen
- c) Following strict rules
- d) Keeping secrets from citizens
